Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

Response to Amendment

1. The amendment file on 4/3/03 has been received and entered in the case.

REASONS FOR ALLOWANCE

2. Claims 19-47 are allowed.

Each of claims 19, 38, and 43-47 has been amended to recited that one of a differential amplifier circuit and a second circuit is enabled while isolating (disabling) the other one of the differential amplifier circuit and the second circuit. Thus, these claims, as amended, are allowed because applicant's arguments are found persuasive, i.e., the prior art of record fails to disclose or suggest the element of a control circuit for selectively enabling one of the differential amplifier circuit and the second circuit while isolating (disabling) the other one of the differential amplifier circuit and the second circuit.

Claims 20-21 are allowed because they depend on claim 19.

Claims 39-42 are allowed because they depend on claim 38.

Claims 22-37 are allowed for the same reasons as indicated in the office action mailed on 5/3/02), which are:

Claims 22 and 28 are allowed because none of the prior art of record discloses or suggests an input buffer circuit which includes all the limitations of this claim. In particular, applicant's arguments (filed on 3/19/02) are found persuasive that the prior art of record fails to disclose or suggest, in combination with other limitations, the "control circuit enables the differential amplifier circuit and disables the second circuit when the first and second input signals have amplitudes smaller than a predetermined voltage".

Claims 23-24 and 29-32 are allowed because they depend on claims 22 and 28, respectively.

Claims 25 and 33 are allowed because none of the prior art of record discloses or suggests an input buffer circuit which includes all the limitations of this claim. In particular, applicant's arguments (filed on 3/19/02) are found persuasive that the prior art of record fails to disclose or suggest, in combination with other limitations, the "control circuit disables the differential amplifier circuit and enables the second circuit when the first and second input signals have amplitudes greater than a predetermined voltage".

Claims 26-27 and 34-37 are allowed because they depend on claims 25 and 33, respectively.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
